

Mini5 & Mini6 are recognised low cost structured cabling brands In the UK, with a reputation for high quality and lower associated installed costs. Both Mini5 & Mini6 solutions are available to approved installers, as a 25-year installer's warranty. All products meet ROHS compliancy.

PAGES

Mini5 CAT5e Structured Cabling Solution

1 - 8

Mini5 is a CAT5e punch down solution for UTP or FTP installations utilising dual punch down connection blocks. The wall plates are available as standard UK size frames with European/North American styles available to special order. Patch Panels can be supplied in either flat or angled outlet types and are non-modular. The premise wiring cable is available in PVC or LSOH and is metre marked for ease of installation. Easy pull 305Mtr boxes with anti snagging design ensure less down time for the discerning professional.

Mini6 CAT6 Structured Cabling Solution

9 - 14

Mini6 is a CAT6 UTP and CAT6a 10Gig STP punch down modular solution, where the keystone jack is used for both the panel & wall outlet. Two versions of the UTP jack are available, the lower cost version meeting & exceeding the CAT6 standard and the CAT6+, which meets the CAT6 component level standard. The recently introduced CAT6a 10Gig fully shielded jack is a D-embedded product that is also modular in design & is suitable for a specially designed patch panel with enhanced grounding features. The UTP Mini6 cable is LSOH grey as standard and is supplied in easy pull 305Mtr boxes with anti snagging design. The CAT6a shielded 10Gig solution is available as standard in LSOH reels of 500 or 1000Mtr.

Mini5/6 Fibre Patch panels, Cables & Accessories

15 - 22

The range of Mini5 fibre products compliment both the CAT5e & CAT6/6a structured cabling systems. Both Singlemode OS1 & Multimode OM1, OM2 & OM3 patch panels, cables and accessories offer quality together with lower installed costs.

Mini5/6 Voice Products, Enclosures & Accessories

23 - 34

Mini5 Voice products are an ideal compliment to the CAT5e & CAT6 range of structured cabling products. A wide range of wall boxes & floor standing enclosures have been carefully designed to accommodate data, fibre & voice structured cabling solutions.

Mini5/6 SOHO Residential Cabling

35 - 38

Designed as a compact 10inch rack mounted solution as an alternative to the Internationally recognised 19inch standard. The 10inch offers a more compact presentation for CAT5e/CAT6 & fibre structured cabling requirements for both domestic (home) or small office environments.

Mini5 Ethernet Switches

39 - 40

Mini5 switches are available with both dumb and managed functionality for either 10/100Mbps Ethernet or gigabit fast Ethernet (1000mbps) applications. A combination of copper and gigabit fibre port switches are available for the 24-port rack mounted solution only. Media converters for Singlemode & Multimode can be supplied as stand alone units or part of a chassis 19inch mounted system for multi-port applications.
